| Voltage                | 100 V                               |                  |
| Frequency              | 50/60 Hz                            |                  |
| Power                  | 1500 W                              |                  |
| Speed                  | 0.7-7.5 m/min                       | 2.29-24.6 ft/min |
| Temperature            | 100-560 °C                          | 212-1040 °F      |
| Air volume adjustable  | Yes                                 |                  |
| Welding materials      | CV; LVT; Linoleum; PUR; PVC; Rubber |                  |
| LQS                    | No                                  |                  |
| Brushless blower motor | Yes                                 |                  |
| Length                 | 562 mm                              | 22.12 in         |
| Width                  | 289 mm                              | 11.37 in         |
| Height                 | 440 mm                              | 17.32 in         |
| Weight                 | 15.5 kg                             | 34.17 lb         |
| Plug                   | JP, 3 poles, 15A                    |                  |
| Power cable length     | 3 m                                 | 9.84 ft          |
| Approvals              | CB Certification; CE                |                  |
| Protection class       | I                                   |                  |
| Country of origin      | Switzerland                         |                  |

## Scope of delivery

170.556 Nozzle adjustment gauge; 169.412 Tool case
