

TWINNY S/T

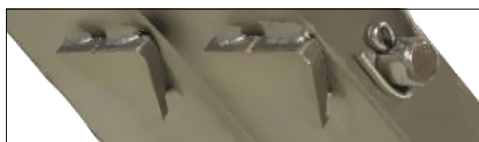

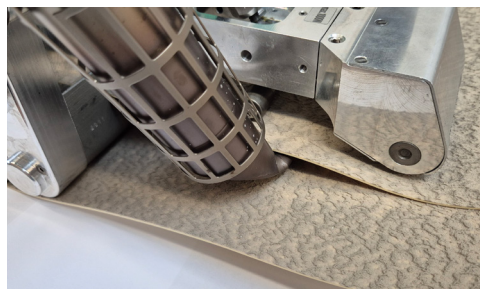

Wedge nozzle 50 mm, with test channel, with scraper

Art. No. 179.744

- Fits on welding machine Leister TWINNY S/T
- Optimized for welding work of Sika Proof A+ membranes
- Available from your Leister distributor

Designed for welding of fully bonded waterproofing systems, the TWINNY nozzle enables reliable welding of membranes bonded directly to concrete. Its integrated scraper mechanically prepares the special functional layer during the welding process, helping to create a clean, strong, and durable welding seam.
